PROFESSIONAL SUMMARY

Cloud & DevOps Engineer with hands-on experience in AWS, Azure, Kubernetes, Docker, and Terraform, building scalable and reliable infrastructure. Strong background in Infrastructure as Code (IaC), containerization, CI/CD pipelines, and automation using Python and Ansible. Experienced in supporting production systems, improving system reliability, and implementing cloud-native solutions aligned with SRE principles.

TECHNICAL SKILLS

Cloud Platforms: AWS, Azure
Containers & Orchestration: Kubernetes, Docker
Infrastructure as Code: Terraform, CloudFormation (basic)
Programming: Python
Configuration Management: Ansible
CI/CD Tools: Jenkins (basic)
Networking: VPC, Subnets, Security Groups, Routing
Databases: SQL
Operating Systems: Linux

PROFESSIONAL EXPERIENCE

June - 2025

LTM – Cloud & Infrastructure Support

- Monitored production systems uptime, performance, and reliability, ensuring high availability
- Supported incident management, troubleshooting issues and contributing to root cause analysis (RCA)
- Worked with cross-functional teams to resolve infrastructure and application issues
- Assisted in maintaining cloud-based infrastructure (Azure) and operational workflows
- Gained exposure to Linux systems, networking, and system monitoring tools

PROJECTS

Cloud Infrastructure Automation using Terraform (AWS)

- Designed and deployed 2-tier architecture with public and private subnets
- Configured VPC, route tables, and security groups for secure communication
- Implemented Infrastructure as Code (IaC) using Terraform for reproducible environments

Containerized Application Deployment (Docker + Kubernetes)

- Built and deployed containerized applications using Docker
- Managed container orchestration using Kubernetes (basic exposure)
- Improved deployment consistency and scalability using container-based architecture

Configuration Automation using Ansible

- Developed Ansible playbooks to automate server provisioning and configuration
- Reduced manual effort and improved deployment reliability

EDUCATION

May 2025

SNS Institutions

Bachelor of Science in Information Technology

CGPA - 8.4
